Instructions:

When to fill out: *Fill out at least* ***three times each day*** *(once in the AM, once during mid-day and once in the evening), and at any other times the turbine sounds are noteworthy. Always note exact time of log entry with "am" or "pm"*

Ratings: *Mark one of the wind sound levels, turbine sound levels, and turbine sound annoyance levels that best fit the descriptions provided*

Sound Description *: Mark any and all descriptors that apply to the sound you hear from the turbines at this date and time. Use back of form to add additional descriptors and comments as is needed. Please as simple and easy to understand as is possible.*

Location: *Mark the location that best fits where the log entry was made, or write in another location after "other:"*
